SiriusXM-Ready Bluetooth Kits For Honda and Toyota

SATSTREAMER is the first SiriusXM-Ready™ Bluetooth integration kit for select 2014-2015 Toyota, Scion and Honda Accord, Civic, CR-V and FIT vehicles.

This integration kit connects to the latest SiriusXM SXV300 Connect Vehicle Tuner (included, subscription required), giving consumers access to SiriusXM's commercial-free music, plus premier sports talk and live events, comedy, news, exclusive talk and entertainment, and the most comprehensive Latin music, sports and talk programming in radio, all delivered via satellite.

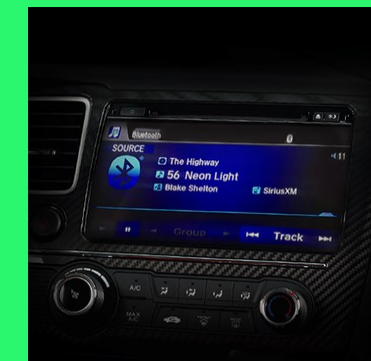

SATSTREAMERHON uses the latest Bluetooth 1.4 AVRCP and A2DP streaming technology to connect with the vehicle's factory-installed radio.

The system will not interfere with other Bluetooth cellular phone connections.

\$329.98 Includes SXV300V1

Installation Prices vary.
Check with a sales advisor.

- Sirius Radio can be controlled from the factory headunit steering wheel buttons.
- Radio channel number, station name, song title, and other related information are shown on the display of the factory radio.
